

Hello everyone, we hope you are getting along well in Term II ... having fun and learning plenty.

Back in 2025 when we were hijacking your regular modules, we promised a **Creative Coding Commentary**, a **Digital Badge** and a **Pizza & Data Party** in January to those of you who ...

- made a Dear Data 100 assignment submission
- engaged with personal tutorials
- completed a feedback exercise

Well ... we're on to it, and here's where we are at:

- **Pizza & Data Party - Monday 2nd Feb**, in **A309**, from **13:30-15:00**

Everybody from *Stage I* is welcome to come and celebrate their progress.

We'd like you to bring your CC memories, ideas, and sketches - so bring your laptops.

We hope that some of you will be willing to show sketches to staff and students who attend and perhaps discuss *Creative Coding* and the *Dear Data 100* experience.

Please come along, and encourage others to do so too. Tell us about your experiences at university so far: what is going well, and any ideas you have for how we can improve things. And of course, for some lunch.

You can either pop in for ten minutes, or join us for the full session, to meet the Head of Department, your Programme Directors, and your fellow students.

Vegan, halal, and gluten-free options will all be available.

[Please complete this form](#) to let us know if you can join us. We want to make sure we have enough food for all!

We would love to chat about what you like and what you don't like about CC over pizza and will conduct an anonymous feedback survey on CreativeCoding in due course.

(We have our favourite and unfavourite bits too!)

Digital Badges will be issued to all who submitted an assignment *sometime soon*.

Check your City emails.

Creative Coding Commentaries are in process.

Your tutors have been asked to check your submissions and send your commentaries.

They will get to these as soon as they can. Leave it with us.

See you at lunchtime on **Monday 2nd**.

Best!

Jason, Giacomo, Golnaz
